Subject: **Revision 7 of the Oak Ridge National Laboratory (ORNL) Waste Certification Program Plan (WCPP)**

The purpose of this correspondence is to notify you that Revision 7 of the ORNL WCPP has been completed. Please provide this notification to appropriate personnel in your area. The primary driver for changing this document is the issuance of DOE Order 435.1, "Radioactive Waste Management." Representatives of ORNL waste generating, waste management support, waste certification, quality assurance, and other support organizations (e.g., Environmental Protection, Radiation Protection, Office of General Counsel, etc.) have reviewed and concur with changes in this document. As noted in Section 4.1.1, implementation of the WCPP requirements is accomplished by three implementing procedures and one Standards-Based Management System Subject area.

Since issuance of Revision 6 of the WCPP, the basic organizational structure has changed. The Waste Certification Officer now reports organizationally to the Environmental Protection and Waste Services Division. The certification process has been modified slightly adding flexibility to the program. These changes necessitated a revision of the WCPP.

Upon approval, Revision 7 of the WCPP will be available for viewing at the url noted below. A hard copy will be provided upon request.

http://nt_server_3/wmdireccef/Home%20Page/Default.htm

Please feel free to contact L. K. Morgan (574-1663) with any questions regarding the WCPP.
